

Motorola LS2208 Barcode Scanner for the Office PC

This connects directly to the back office PC through any available USB port.

When changing or adding a new UPC just scan the barcode on the item instead of typing all those digits.

Improves speed and accuracy of data entry.

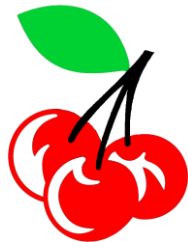

Can be used anywhere in the program where the barcode needs to be entered.

Complete Kit Supplied

- LS2208 Scanner in White or Black
- USB Cable
- Stand (requires fastening to the work surface)
- One page scan sheet to make it work with CSS.

Warranty

- Includes five (5) year limited manufacturer's warranty
